# SARAH KIRSTEN

I hope these can serve you by helping you grow your Instagram audience and connecting you with more fellow sewists. Instagram has such a wonderful community of makers. If you're new to the Instagram sewing community, welcome! I'm so glad you're here.

Instagram allows up to 30 hashtags per post, and research shows it's beneficial to post more than less!

Copy and paste several different combinations of 30 of these hashtags into the 'Notes' on your phone. Each time you post, copy and paste one of the groups into your caption or comments.
